*Spring and
 Fall 1943*

Lovely AMARYLLIS Hybrids

The most striking house plant and easy to grow indoors. See illustration above. Plant one bulb to a pot, with two-thirds of the bulb above ground. Cultural directions sent with each order. Each flower stalk has from 2 to 6 huge lily-like blossoms, in colors from the most vivid reds through intermediate shades to pinks and whites. When I say "huge" I mean that each flower is from 5 to 10 inches across. There are solid colors, striped and blended effects. Put a few pots in your window and watch the magical results.

STRONG FLOWERING SIZE BULBS

35c each 3 for \$1.00 6 for \$1.75 12 for \$3.00 100 for \$20.00

"THE EARLY BIRD" always has the greatest success in gardening. BE WISE! PLANT EARLY! The Best Time to plant Trees, Shrubs, and Roses is in Early Spring, before the buds have begun to open. This means you Should Place your Order NOW for BEST RESULTS.

NO SHIPMENTS SENT C.O.D. Money order or check should be sent with the order. All shipments will be sent Express Collect, the small express charge to be paid to the express company on delivery of the package.

ALL PRICES ARE SUBJECT TO ADVANCE WITHOUT NOTICE. Very few prices in this catalogue have been advanced, and some prices have been considerably reduced, although the cost of everything we use has advanced materially. This catalogue is intended to serve as a descriptive catalogue for the Spring and Fall of 1943, but prices will no doubt have to be advanced sooner or later, therefore THESE PRICES CANNOT BE GUARANTEED BEYOND THE SPRING OF 1943.

EVERYTHING IN THIS CATALOGUE WILL BE SENT FROM MY 112 ACRE NURSERY IN NEW JERSEY.

Picardy (Greatly Reduced)

The Finest Gladiolus in the World

**Florets up to 7 inches across on flower stalks
up to 6 feet tall**

Commander Koehl (Greatly Reduced)

The World's Finest Red Gladiolus

**Brilliant, glossy florets of huge size, without
a speck of any other color**

ROBERT WAYMAN, Bayside, Long Island, N. Y.

The World's 25 Best Gladiolus

Pelegrina (greatly reduced)

The World's Finest Blue Gladiolus

Huge stalks, with many lustrous
florets open at once

The splendour of these World Famous Gladiolus cannot possibly be reproduced in color. No artist can depict their spectacular beauty and no descriptive word can do them justice. They must be seen. The six varieties illustrated on Pages 2, 3, 4, and 5 are each the finest of their type. The illustrations of course are very greatly reduced, in fact I might say they are in miniature, for individual florets of many varieties are nearly as wide as this page, and the flower stalks are often shoulder high.

In this collection has been assembled the 25 varieties, which, among the thousands of varieties voted upon by the American Gladiolus Society, received the 25 highest votes. They are listed in the order of merit, as determined by the number of votes cast for each variety. Picardy received the largest number of votes, therefore heads the list as the "World's Finest Gladiolus," Minuet received the second largest number of votes, and therefore appears second on our list, etc.

If you wish the best that money can buy, if you wish to be a winner at the flower shows, or if you grow flowers only for your own pleasure and the enjoyment of your neighbours and friends, you simply cannot go wrong in selecting "The World's 25 Best Gladiolus."

I am quoting a uniform price on the 25 varieties in this collection, as listed on Pages 2-3-4-5, as follows:

10c each; 3 of one kind for 20c; 6 of one kind for 30c
12 of one kind for 50c; 100 of one kind for \$3.25

A pamphlet entitled "How to Grow Fine Gladiolus" will be sent with each order.

You May Choose Individual Varieties, or Order the Complete Collection at the special collection price indicated on Page 5.

PICARDY—Sensation of the Gladiolus world and winner of highest vote of American Gladiolus Society. Florets up to seven inches across, on flower stalks up to six feet tall. Sold a few years ago at \$2.00 a bulb. See illustration Page 2.

MINUET—Best orchid-toned variety, superb in every way. Huge florets up to seven inches across, one stalk making a bouquet. Majestic in the garden; unsurpassed as a cut flower; a sure winner in the flower shows. See color illustration Page 4.

COMMANDER KOEHL—The World's Finest Red Gladiolus. Gorgeous rich glossy flowers of great brilliance, huge size, perfect form, and without a speck of any other color. See color illustration Page 2.

BETTY NUTHALL—Always a Prize Winner. Glowing orange-pink with soft yellow throat. This variety sometimes produces as many as five huge spikes to a single bulb. It seems unbelievable that so much beauty could come from a single bulb. See illustration Page 5.

MOTHER MACHREE—Like the foregoing varieties, it is the leader in its class, being an invincible lavender, with glints of salmon and gold and a delightful yellow area at the throat. It is one of the most beautiful flowers grown.

MARMORA—An exquisite flower of unusual lavender-grey, with a bright petunia spot at the throat. Huge flowers, many open at once.

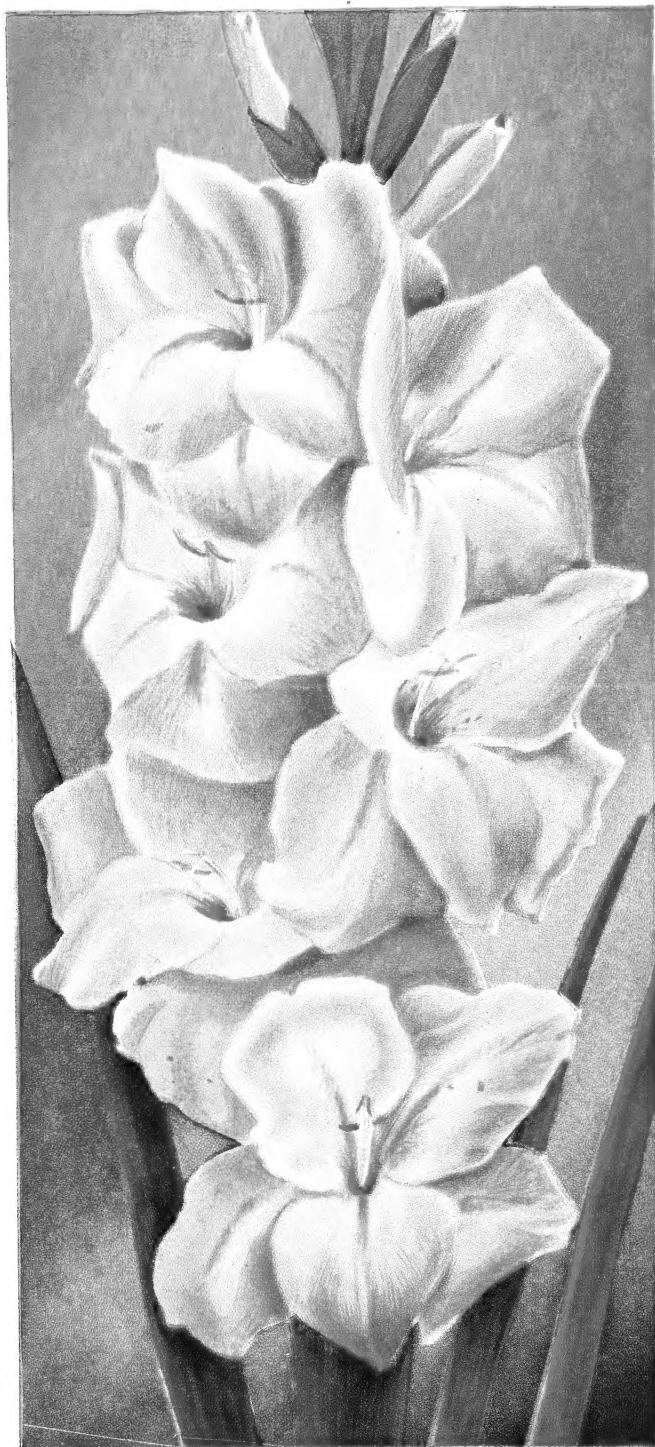

MAID OF ORLEANS—A five-star sensation, which jumps immediately to first rank as the best white. Huge flowers of aristocratic bearing, with soft cream buds opening to pure snow white.

MR. W. H. PHIPPS—This variety headed the list for many years, and is still and always will be one of the most glorious of all gladiolus. The color is a gorgeous salmon pink, with very large flowers, many open at once. It is still my own special favorite.

BAGDAD—A gigantic flower of an unusual old-rose color, being in a class by itself. Florets seven inches across, ten open at once, on tall spikes.

MILDRED LOUISE—A magnificent new bright strawberry-pink, with lovely delphinium blue anthers, yellow throat and deep red pencilling on lower petals.

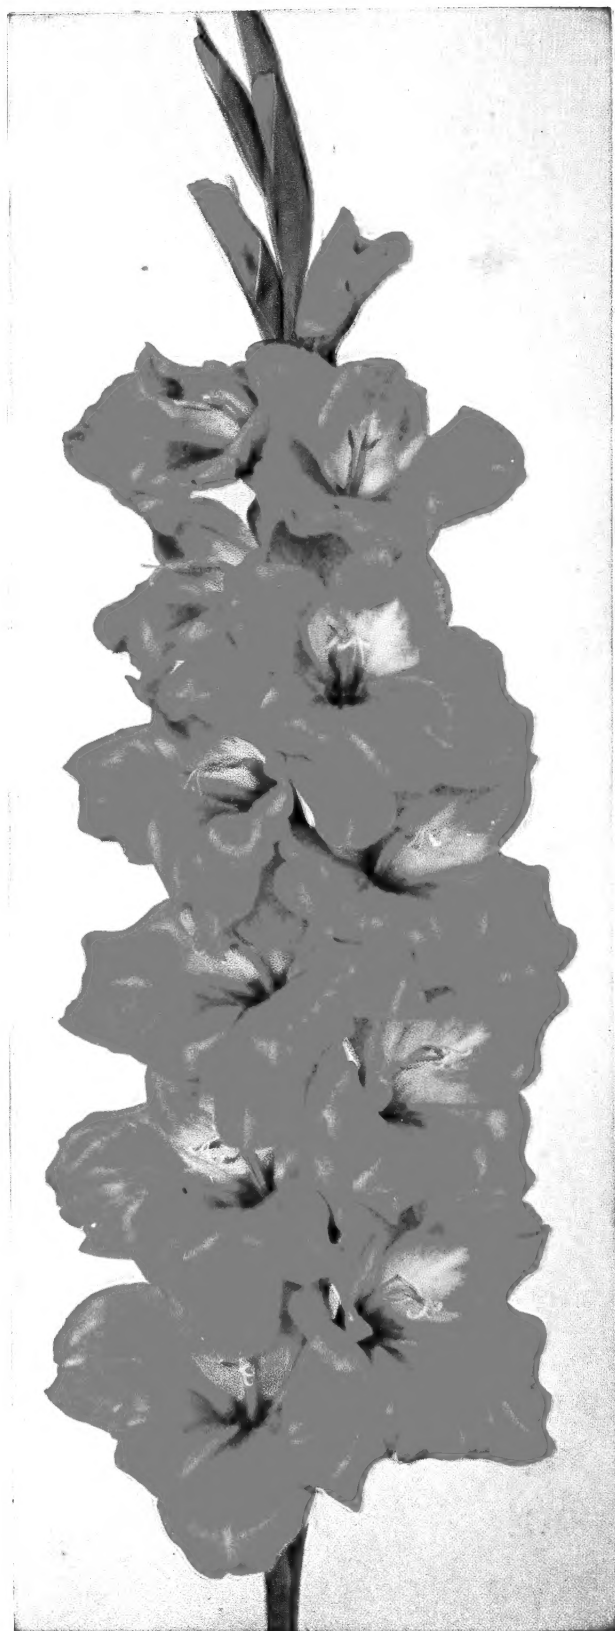

PELEGRINA—Some years ago there was no such thing as a blue gladiolus, but blues have been gradually developed until now we have in *Pelegrina* the perfect deep blue Gladiolus. It is a fine, large, outstanding, lustrous intense deep blue flower of perfect form and received the highest vote of all the blues. Huge stalks, many open at once. Always a prize winner. See color illustration on this page.

Minuet (Greatly Reduced)

The World's Finest Orchid Colored Gladiolus

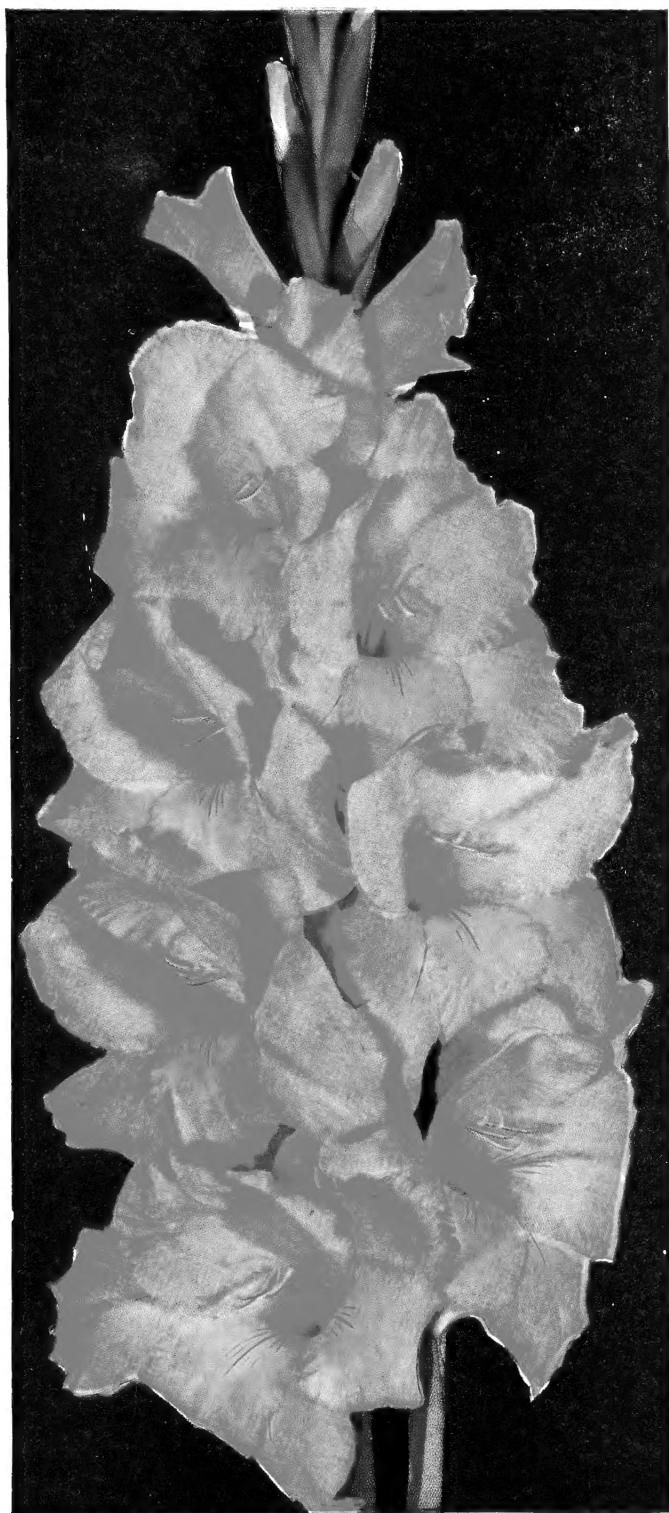

Huge florets up to 7 inches across, one stalk making a bouquet. Majestic in the garden, unsurpassed as a cut flower. A sure prize winner

Red Lory (Greatly Reduced)

A sensational gladiolus, with as many as 12 gigantic florets open at once

The World's 25 Best Gladiolus—Continued

Betty Nuthall (Greatly Reduced)

The World's Finest Blended Gladiolus

Produces as many as 5 huge flower spikes
to a single bulb

MAMMOTH WHITE—A gorgeous white, with a beautiful cream throat. Gigantic flowers, the individual florets being six to seven inches across, and many open at once. A masterpiece in snowy whiteness.

DR. F. E. BENNETT—This unexcelled brilliant scarlet has for many years held its place as one of the leading Gladiolus. A grand variety and dependable prize winner.

WASAGA—You will undoubtedly pronounce this the most beautiful Gladiolus you have ever seen. The color is a clear, glowing buff, without a mark or speck of any other color, and the large flowers are beautifully ruffled. There is no other Gladiolus like it.

STAR OF BETHLEHEM—This immense pure snow-white Gladiolus is loveliness supreme. I personally think it is the finest white Gladiolus.

ALBATROSS—An absolutely pure snow-white, without a trace of any other color; huge florets and tall spikes. In the previous symposium it received the highest number of votes of all whites.

SALBACH'S ORCHID—Large, open, beautifully placed flowers in the color of the Cattleya Orchid; as many as ten flowers open at once. A real aristocrat.

PFITZER'S TRIUMPH—Enormous open flowers of brilliant scarlet, with a deep cherry-red spot at the throat. One of the largest and finest of all Gladiolus and winner of countless prizes.

AFLAME—A flaming scarlet, of the finest Primulinus-Grandiflorus type. Gigantic spikes and blooms and a magnificent flower.

ROSEMARIE PFITZER—An unusual new dainty white, overlaid with delicate flakes of soft pink. Nicely ruffled. A very lovely variety. Different from all others.

DUNA—A very lovely soft flesh-pink to pale apricot, the color being uniform, without marking of any kind.

RED LORY—A sensational flower with as many as 12 gigantic florets open at once. One stalk makes a bouquet. Winner of many prizes. See illustration Page 4.

MRS. LEON DOUGLAS—Magnificent begonia-rose, flaked scarlet. One of the largest and showiest Gladiolus.

GOLDEN DREAM—Has always been "tops" in yellow and again received the highest number of votes of any yellow. A rich, deep, golden yellow.

LOTUS—A delightful new soft shell pink over a white ground, with a white throat. A heavy waxy substance gives it a shell-like texture. Preeminent among all delicately tinted gladiolus.

With 10 “Sweet and Lovely” Free

**“SWEET AND LOVELY” WILL BE
BAGGED AND LABELLED
FOR IDENTIFICATION**

This collection is the finest mixed collection I have ever offered, and I believe the finest ever offered by anybody. IT WILL INCLUDE EVERY GLADIOLUS ILLUSTRATED IN THIS CATALOGUE AND EVERY VARIETY LISTED IN THE “WORLD’S 25 BEST” COLLECTION. Then I have about 100 new and rare varieties, representing the most advanced improvement in Gladiolus to date, but do not have space in this catalogue to list them this year. Therefore these will also be added to this grand mixture to further improve it. In addition to all this, all of those New and Rare Varieties listed four years ago as “The Gladiolus of Tomorrow” have been added to this Collection. And to top it all off, “SWEET AND LOVELY,” THE NEW FRAGRANT HARDY GLADIOLUS ILLUSTRATED ON THIS PAGE WILL BE INCLUDED AS A GIFT, SEPARATELY BAGGED FOR IDENTIFICATION.

The entire gladiolus color range is included, such as the newer lavender, heliotrope, orchid, blue, and purple shades, white, rose, salmon, red, pink, scarlet, and Cardinal tones, soft and deep yellow and orange, a vast array of rainbow colors all mixed together in a well balanced collection.

All are huge flowers of unbelievable size and great beauty, many flowers open at once. Every bulb is of flowering size, just the right age to be full of pep and give the finest results. All are healthy, clean, and free from disease.

For mass planting in the garden, or for cut flowers, there is nothing finer. Due to the fact that the varieties in this collection have varying flowering periods, a 60 day succession of bloom may be expected from one planting. By making two or three plantings, 2 weeks apart, flowers may be had all summer long.

Order as many collections as you can make room for. If you do not have room for 100, get your neighbor to join with you, but 100 Gladiolus require a space only 3 by 3 feet, and many gardens have room for several collections.

“Sweet and Lovely”

Sensational New Fragrant Gladiolus

“Sweet and Lovely” is the first fragrant gladiolus having the height and size of other Gladiolus. It will grow and flourish right out in the open in your garden with your other Gladiolus, with no special care. The individual florets are four inches across, and the flowering stalks are three to four feet tall. In all the horticultural world there is nothing more beautiful, in my opinion, than “Sweet and Lovely” gladiolus. The blending of colors and subtle tints, the perfection of form and poise, make it a marvel of beauty.

But the outstanding feature of this lovely new variety is its fragrance; for “Sweet and Lovely” brings us an entirely new fragrance all its own. It is not the overpowering fragrance of the Lily; neither is it the fragrance of the Rose, or the Violet, or any other flower. It is a new fragrance, the fragrance that will be identified with the fragrant Gladiolus of the future, a fragrance that is delicate, subtle, yet sweet and distinct. The fragrance is greatest just as the flowers are opening, and in order to enjoy the full benefit of their sweet odor, they should be cut just as the buds are opening and placed in a vase of water in a quiet, fairly warm room.

You will surely want to enjoy both the beauty and the fragrance of “Sweet and Lovely” in your garden and in your home this summer, for it is equally attractive in the garden or as a cut flower.

15c each; 3 for 40c; 6 for 75c; 12 for \$1.25; 100 for \$8.00

Buddleia "Fortune"—Plant Patent No. 206

Presenting the New Buddleia "Fortune"

The Buddleia, also known as the Butterfly Bush, or Summer Flowering Lilac, is one of our most valuable and ornamental shrubs and the new Buddleia "Fortune," illustrated above, is a distinct improvement over varieties heretofore known. "Fortune" is very close to perfection. The color is clear pure lilac, with a small orange eye in each tiny floret. The flower sprays are fully round, beautifully symmetrical, and the entire spray is in

bloom practically from base to tip at the same time. The flowers may be cut with stalks 2 to 3 feet long and last several days when cut. It is magnificent as a cut flower and stunning as a garden specimen. The bush is of neat habit, about four feet high and four feet across. It flowers continually all summer and until stopped by frost. **Strong plants \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.**

"Charming"
A lovely new color in Buddleias

"Charming"—New Pink Buddleia

This sensational new Buddleia has been AWARDED A SILVER MEDAL by the Pennsylvania Horticultural Society. The lovely pink flowers are borne in long sprays throughout the late summer and autumn. Gorgeous as a shrub in the garden and superb as cut flowers. See illustration. Strong field grown plants. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.**

Buddleia "Hartwegei"—Another new Butterfly Bush and one of the very finest of them all. The brilliant lavender flowers are closely and compactly placed on the panicles, opening to the top, before the basal flowers fade. As a summer cut flower and as an ornamental lawn or garden shrub it is unsurpassed for its beauty and usefulness. The hardiest of all. **75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00.**

Buddleia "Ile de France"—Fine large flowers of deep rich glowing claret purple. Excellent as single specimens or for mass effect. Constantly in bloom. The richest and darkest of all. **75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.00.**

Buddleia "DuBonnet"—A gorgeous new variety in rich Dubonnet wine color. One of our finest new introductions. **\$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00.**

The Cream of the World's Best New Decorative Dahlias

Jersey's
Beauty

When I say that this is the finest collection of Decorative Dahlias I have ever offered, it is putting it mildly. I believe it is one of the best collections that will be offered this season by any one at any price. I spent a good deal of time this past season, when Dahlias were in bloom, making careful comparisons in order that I might include in this collection the best of each color and type, and here is my selection as "The World's Best" Decorative Dahlias for 1943. You'll be amazed at the superlative beauty and great size of each variety, and you are sure to carry off the prizes in your local shows with this choice collection.

BETTY COLTER—Immense flowers of salmon red, shaded old rose. One of the finest and most distinctive of the newer introductions. 50c.

BLACK JACK—Huge, handsome flowers of rich, deep, dark maroon on fine strong stems. A magnificent variety. 35c.

"WONDERLAND" DAHLIA COLLECTION

8 New Giant, Showy Decorative Dahlias **\$2.25**
My Selection, Labelled, from the
Foregoing List

Cultural Directions Included

Big, strong tubers will be sent, that will give you an abundance of magnificent blooms this year. Each will be distinctive, no two alike. Make your garden a Wonderland of Beauty by planting these new and lovely creations. For the price of a single bouquet you may have flowers in the garden and cut flowers indoors all summer and fall.

CALIFORNIA GIANT—A gorgeous Dahlia of huge size in the glorious autumn shades. 35c.

CAVALIER—A huge new lavender, shading lighter towards the tips. This is one of the most gorgeous Dahlias grown and I am fortunate in being able to offer it as a part of this collection. It is a flower of superb form and coloring. 50c.

ELINOR VANDERVEER—An exquisite Dahlia of great size on perfect stems. Color a rich satiny rose pink. 25c.

IVORY—An aristocrat in white tinted ivory. 35c.

JAMES KIRBY—A real "Masterpiece" in dark red. 35c.

JERSEY'S BEACON—One of the finest of all Dahlias. Of gigantic size and unusual Chinese Scarlet coloring. Sometimes nearly a foot across. 35c.

JERSEY'S BEAUTY—This variety still holds the lead as a cut flower. It is said American Florists sell more Jersey's Beauty than all others combined. 20c.

J. K. ALEXANDER—Biggest red, tipped gold. Superb. 35c.

KING TUT—Rich glowing crimson burgundy, darker towards the centre. A vigorous variety on a splendid stem. 35c.

MABEL GOODACRE—Magnificent flowers of tremendous size in a delightful rosy lavender color. 35c.

MONARCH OF THE EAST—A glorious deep yellow, sometimes with red reverse. 35c.

MYRA HOWARD—A gorgeous yellow, beautifully flushed rose. 35c.

NELLIE AUSTIN—A peach and gold combination that is superb. 35c.

PENN CHARTER—A large, very handsome salmon pink. 35c.

PRINCESS MARY—Huge flowers in a delightful mauve shade. 35c.

PRINCESS XENIA—Deep rose, flaked deeper. Exquisite. 35c.

RADIO—Huge flowers in the most attractive autumn colorings. Bright red, edged, tipped, and striped yellow. 25c.

SAGAMORE GOLD—Pure gold, burnished orange. A great improvement on the magnificent and popular variety Sagamore. A thrifty and vigorous grower and a great Dahlia. 35c.

THE TELEGRAM—A gorgeous orange, tipped white. 35c.

WHITE ABUNDANCE—A magnificent white of large size, the flowers being produced in great abundance. 35c.

WM. H. HOGAN—Magnificent garnet red, tipped snow white. The best of the bi-colors and the only one that produces uniform flowers. 35c.

YANKEE ROYAL—An unsurpassed purple Dahlia, of great size and richness. 35c.

YELLOW PRINCESS—One of the best new yellows. 35c.

"WORLD'S BEST" NEW DECORATIVE DAHLIA COLLECTION

1 each of the 25 varieties listed above. \$ 5.75
3 of each, total of 75 strong tubers. 15.00

All accurately labelled—Cultural directions included. Every one is an exceptional variety, of large size and great beauty.

16 New Cactus Dahlias

The same careful consideration has been given to the selection of the 16 varieties in this collection, and the same care exercised, as in the selection of Decorative Dahlias on the preceding page. This is likewise by far the finest collection of Cactus Dahlias I have ever offered and in my opinion the finest of each color to date. Limited space permits only very brief descriptions, but all are of huge size, fine form, artistic poise, and exquisite coloring. As cut flowers they are unsurpassed.

35c EACH; \$3.50 A DOZ., YOUR SELECTION, LABELLED

- AMBER GLOW—A marvelous pure clear lemon yellow.
- ATTILLA—Superb deep red, tipped snow white.
- BALLET GIRL—Very large flowers of orange and white.

- SNOW PRINCESS—Best pure snow white.
- WATCHUNG GIANT—Huge orange and amber.

35c each; \$3.50 doz., Your Selection, Labelled

1 EACH 6 VARIETIES LISTED \$1.75

Miracle, "5-in-1" Plum Tree

The delightful effect of these multi-colored fruits hanging on one tree is partly shown in the illustration at the left. Of course the fruit is about four or five times larger, and only three varieties are shown in the illustration, but the tree will produce five varieties of luscious plums. Plum trees are almost entirely free from disease and are easy to grow almost anywhere. They prefer a heavy clay soil but even this is not necessary. The varieties of plums produced on this ONE TREE ORCHARD are Burbank, Abundance, Red June, Damson and Stanley, five of the finest and most delicious of all plums in red, purple, yellow, etc. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

Miracle, "5-in-1" Apple Tree

FIVE DIFFERENT APPLES ON ONE TREE

Red Apples, Yellow Apples, Early Apples, Late Apples, Sweet Apples, Tart Apples, Eating Apples, Cooking Apples, apples to suit every taste and for every purpose—all you want of them.

Instead of having an apple tree that bears just one variety of fruit all at one time, plant one of these ONE TREE ORCHARDS, and pick fresh tree ripened fruit all summer and fall. The varieties on this Miracle "5-IN-1" Apple Tree are:

DOUBLE RED DELICIOUS—The finest red eating apple.

YELLOW DELICIOUS—A yellow form of above.

RED ROME BEAUTY—A champion late red apple.

YELLOW TRANSPARENT—The finest early summer apple.

STAYMANS WINESAP—A delicious all purpose late apple.

These trees offer utility, novelty and beauty all in one, for there is nothing finer than an apple tree in full bloom in early Spring. The trees are hardy in the most severe climates and require no special care. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

"YELLOW DELICIOUS" APPLE
One of the 5 varieties of apples produced by
THE MIRACLE, "5-IN-ONE" APPLE TREE

"Peach-Plum-Apricot" Miracle Tree

This is the greatest novelty of them all, with three entirely different kinds of fruit on one tree; first, the "Elberta" Peach, one of the finest for the home garden; second, the "Burbank" Plum, which is world famous and one of the most delicious of all plums; third, the "Early Golden" Apricot, one of the finest produced to date. It sounds unbelievable to have three entirely different kinds of fruit on one tree and it certainly will prove a sensation in your community. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

Miracle, "5-in-1" Cherry Tree

SOMETHING ENTIRELY NEW THIS SEASON

I have something entirely new to offer in Cherries this season, something never before offered. As everyone knows, Cherries ripen in June, but these new "5-IN-1" Miracle Cherry Trees, will also produce cherries that ripen in August, and another variety that ripens from September until frost, both delicious eating cherries. The other 3 varieties are BING, a superb dark red; ROYAL ANN, the popular large yellow cherry with amber cheeks; and WINDSOR, the famous black cherry. All blossom at the same time in the spring. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

MIRACLE "5-in-1" FRUIT TREES

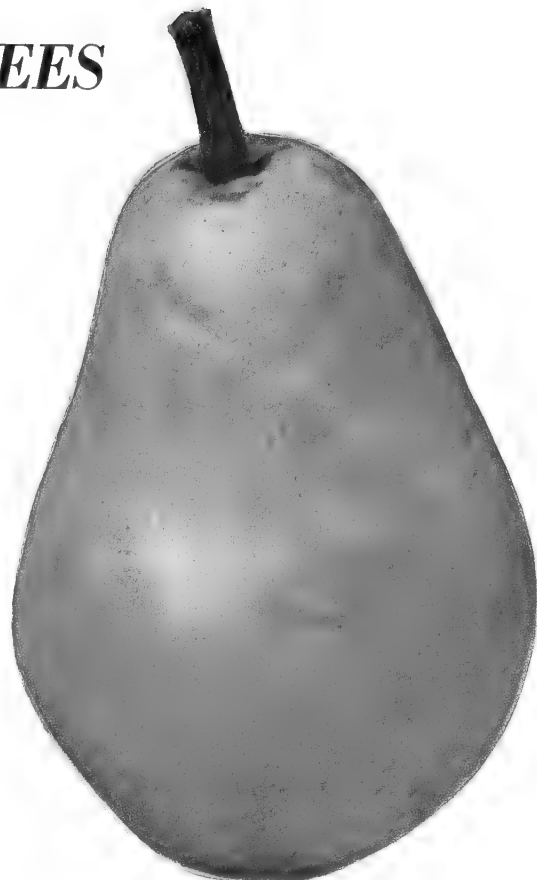

are among the Greatest Novelties Ever Offered
to the Horticultural World

Miracle "5-in-1" Pear Tree

Delicious tree ripened fruit is most healthful, and every one with any kind of a garden can find room for one or more of these marvelous multi-fruited trees. Your neighbors will be amazed and you will have a lifetime of enjoyment for a small investment. The varieties of pears on this tree are the Bartlett, Keiffer, Garber, Early Harvest and Koonce, five of the finest pears that grow, juicy, highly flavored, early and late. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

Miracle "5-in-1" Peach Tree

MIRACLE "5-IN-1" PEACH TREE—J. H. Hale illustrated in actual size, is just one of the five delicious varieties of peaches produced on one tree. The others are Elberta, Golden Jubilee, Red Bird, and Belle of Georgia—the five finest peaches grown. You can have these large, sweet, juicy peaches, all growing and ripening to their rosy and golden glory, providing luscious fruit early, midseason and late, all on one single magical tree. It sounds fantastic but it is true. These trees are sure to prove a sensation in your community. These peach trees are hardy right up into Canada. \$2.50 each; 3 for \$6.50; 6 for \$12.00; 12 for \$20.00.

Bartlett Pear

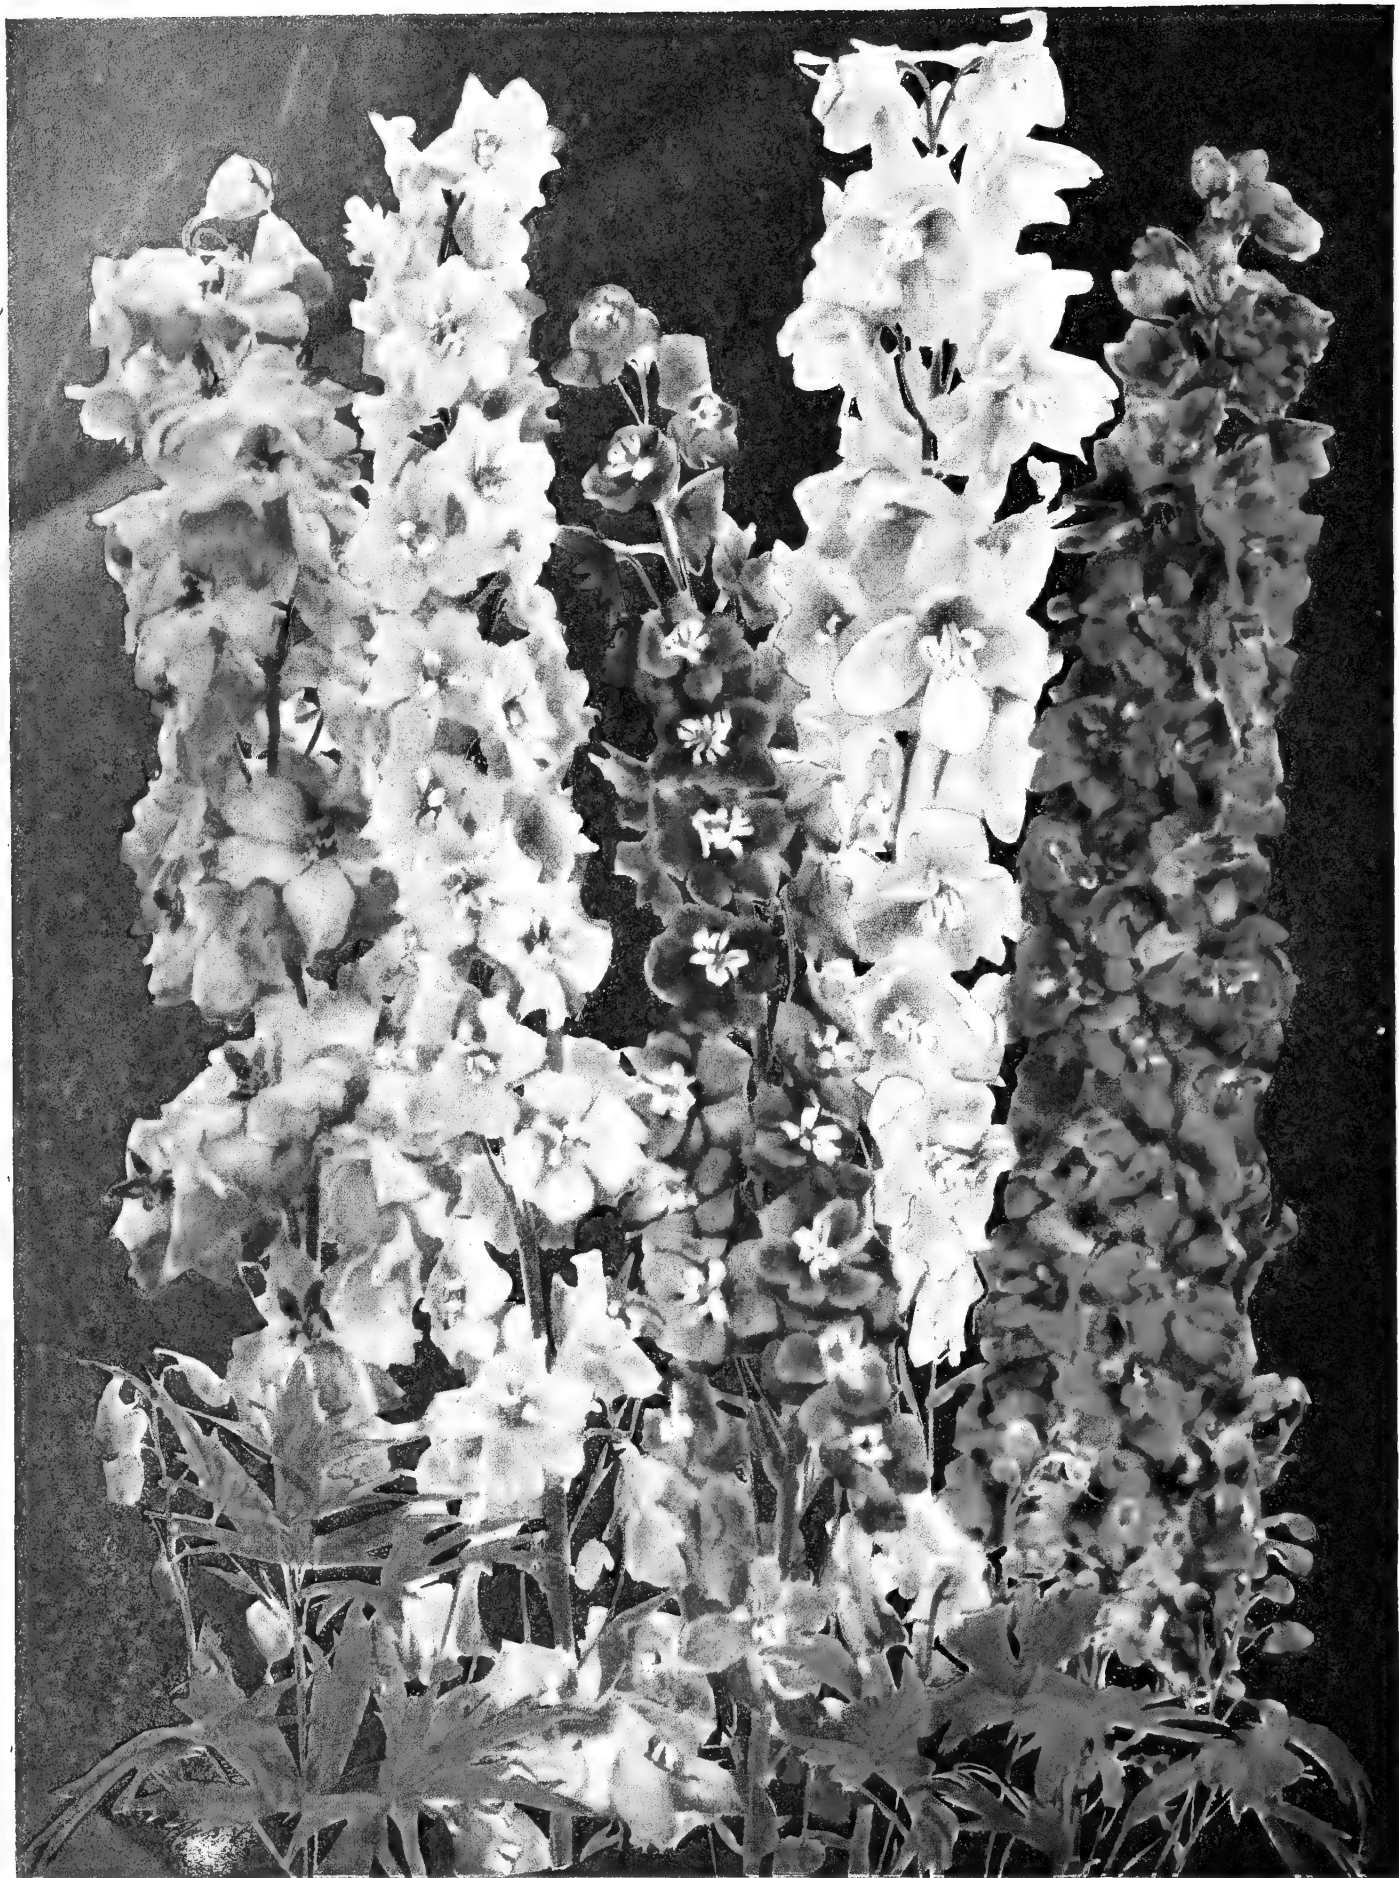

NEW IMPROVED BUSH CHERRY—This new cherry, which grows in bush form, is the result of 40 years work by the originator. The fruit is large and fine to eat from the bush and makes a wonderful jam of the most superb flavor and richest color imaginable. The bush branches from the ground up and the branches are literally covered with delicious fruit. The bush is at all times ornamental, from the Spring when it is covered with snow white blossoms, through the summer with its silvery green foliage turning to a rich red and gold in the Fall. They are hardy from Coast to Coast and from the Gulf of Mexico into Canada. Besides the delicious fruit they are superb as a hedge or foundation or other ornamental planting. \$1.50 each; 3 for \$3.75; 6 for \$6.00; 12 for \$10.00.

NEW PLUM-CHERRY HYBRID—

Something entirely new. The fruit is of a delicious sweetness and in favorable seasons will bear fruit the year after planting. Color of skin and fruit rich intense purplish black-red. Hardy everywhere even in the most severe climate of our extreme Northern States and Canada. Branches from the ground up in shrub form so that all fruit is within reach from the ground. A prodigious bearer, as the strength of the plant all goes into producing fruit and not surplus wood, the limbs and branches being covered with a solid mass of delicious fruit. Strong 3 to 4 foot trees, ready to bear fruit next year. \$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$12.00.

J. H. Hale

"GOLD MEDAL" DELPHINIUMS, 75c ea.; 3 for \$1.75; 6 for \$2.75; 12 for \$4.50; 100. for \$30.00.
(See top of next page)

“Gold Medal” Delphiniums

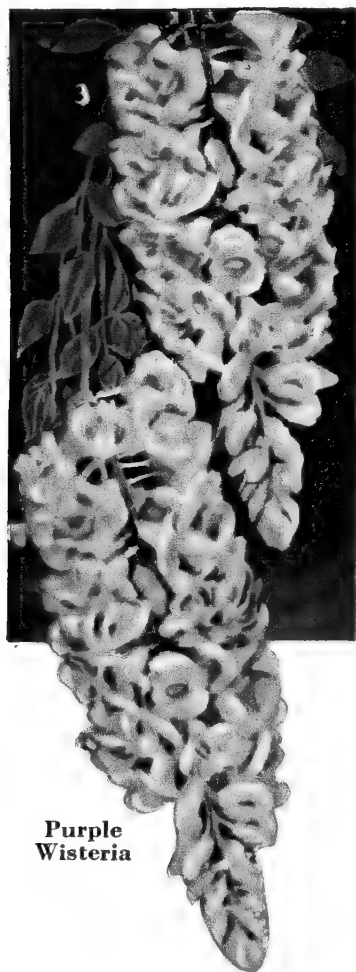

These Delphiniums are the finest I have ever offered. The huge spikes, studded with bloom are often 4 to 5 feet high and the individual florets are many times larger than the greatly reduced illustration. The colors include pure blues, purples, and mauves as well as pure snow white. The plants themselves are strong, stocky flowering size two year old plants with extra heavy root system. I would be justified in offering them at \$1.50 each, but as I have an extra fine large stock of them I am making a special price inducement that should appeal to all flower lovers.

75c each; 3 for \$1.75; 6 for \$2.75; 12 for \$4.50
100 for \$30.00

Wisterias

Many people have had the great disappointment of buying cheap Wisterias and then having no flowers on them after growing them for years. You will not have this trouble with the plants I am offering, as they are all grafted plants grown from flowering wood of extra fine plants and every plant will furnish a great profusion of bloom. The plants are extra strong robust plants, much finer than anything you would expect to receive. You will be agreeably surprised when you see them, and still more pleased when you see them in bloom.

WHITE OR PURPLE—Your choice—

New Giant Blueberries

If you have been buying blueberries in the market lately you may have noticed that they are larger and more delicious than the kind you were formerly able to get. This is the result of work that has been done by experts to improve the old fashioned blueberry. The following is a group of the finest new blueberries to date. They produce the most delicious fruit up to $\frac{3}{4}$ of an inch in diameter. Each plant should produce several quarts of berries each season. Aside from their value in this respect they are most ornamental of all shrubs, Spring, Summer, Fall and Winter. Two or more varieties should be planted together for cross-pollenization for best results. They are hardy anywhere and easy to grow. Cultural directions will be sent along with the plants.

Prices on the following varieties: \$1.50 each; 3 for \$3.75; 6 for \$6.00.

CABOT—The earliest variety of all to bear fruit. Broad plants about 3 ft. high, making a broad, low spreading bush.

CONCORD—The bush is of upright habit and will eventually reach 6 ft. in height. They ripen a few days earlier than Rubel. Berries are large, frequently measuring $\frac{3}{4}$ inch in diameter.

JERSEY—The bush is of vigorous habit and grows to be quite large. The berries are the largest of any here listed and ripen about the same time as Rubel.

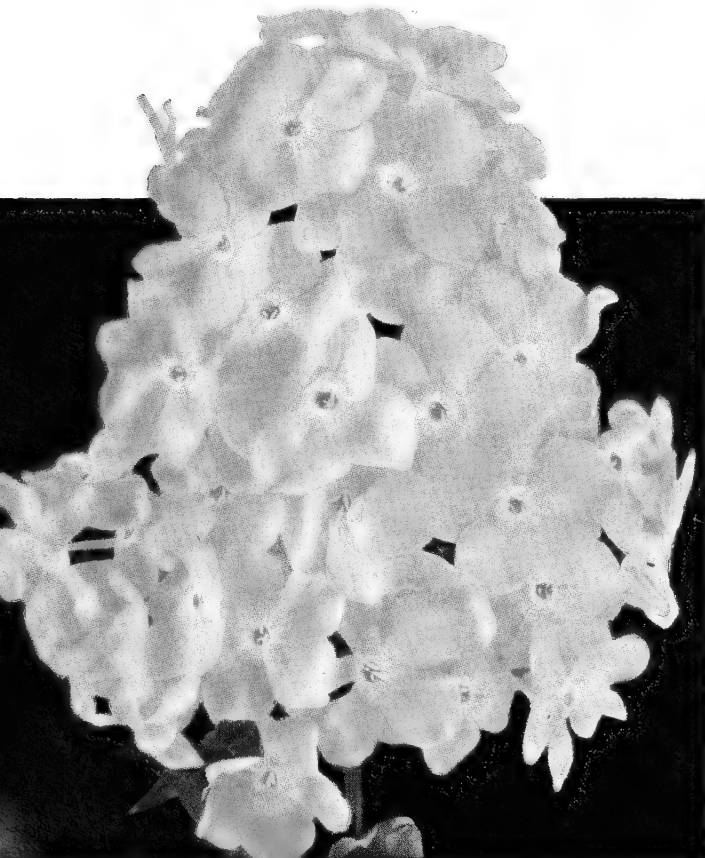

RANCOCAS—The bush is of slender, vigorous, upright growth reaching about 5 ft. in height. The berries are somewhat larger than Rubel and ripen several days earlier.

RUBEL—The bushes are vigorous and handsome and eventually reach a height of 6 ft. or more. The berries are large and of fine blue color. Can be depended upon for a good crop every year. Ripens about 2 weeks later than Cabot.

Widar

COLUMBIA—Plant Patent No. 118. See color illustration below. The finest pink Phlox ever grown. Each plant quickly produces many flowering stalks, literally covered with masses of beautiful cameo pink flowers, with a soft blue eye. Continuously in bloom from June until killed by frost. 40c each; 3 for \$1.10; 12 for \$4.00; 100 for \$30.00.

Phlox — COLUMBIA

Hardy Phlox

The Newest and Best

35c each; 3 for 90c; 6 for \$1.75; 12 for \$3.00
100 for \$20.00 (Except Columbia)

For flowers during late summer and early fall, these lovely new Hardy Phlox are the most beautiful and most useful of all hardy plants. They blossom at a time when flowers are likely to be scarce in the garden and will continue to flower throughout the season if the dead blossoms are removed. These newer Phlox have clear, more brilliant colors and are indispensable in the hardy flower garden.

AFRICA—Beautiful flowers of brilliant carmine, with a blood red eye.

ALBERT LEO SCHLAGETER—No other Phlox approaches this magnificent new variety in beauty, brilliance, purity of color, and length of flowering season. The color is true, brilliant, American Beauty Red, with a deeper red eye, with large florets and immense trusses so profuse as to hide the plant. FLOWERS FROM JUNE UNTIL KILLED BY FROST. 36 in.

B. COMTE—Very rich velvety intensely vivid deep red-purple. Generally considered the best purple. B. Comte will produce one of the most showy spots in the garden.

BORDER GEM—Brilliant velvety rich violet purple. The finest of this color.

BRIDESMAID—A lovely white with deep crimson-carmine eye. Late flowering. Strikingly beautiful. 30 in.

COLONIAL—A most unusual and very beautiful soft lavender-pink. Huge florets produced in prodigious quantities. Best of its color.

EIFFEL TOWER—Salmon pink with a deep red eye, the color deepening and spreading as the flower ages, giving it a unique and very beautiful appearance.

E. I. FARRINGTON—One of the finest new salmon shades. Similar to Columbia, but larger and taller and slightly deeper, with huge individual florets and a bright violet eye. 34 in.

ENCHANTRESS—Unusually brilliant and effective and well named. The color is deep bright pink with a vivid carmine eye, surrounded by a light sunburst. Very striking.

FIANCEE—Purest snow white. Very free flowering. Probably the best pure white.

FIREBRAND—A very beautiful variety, the color being pure tyrian rose, the color being clear and pure throughout.

FRAU ANTON BUCHNER—One of the very best pure whites, growing to a height of 36 in. or more.

JULES SANDEAU—A superb free flowering soft pink. See illustration Page 15.

MISS LINGARD—Best early pure white. Very free flowering.

MRS. CHARLES DORR—A most unusual and very delightful shade of soft pinkish lavender, the flowers being produced in great profusion. No other Phlox like it. Very tall, 48 to 50 in.

MRS. WM. JENKINS—A very profuse blooming and delightful late flowering snow-white variety. 32 in.

PAINTED LADY—This is one of the most attractive Phlox I have seen, with large flower heads of a very soft pink, with a brilliant Tyrian-Rose eye in striking contrast. 32 in.

RHEINLANDER—Deeper salmon pink than Columbia illustrated at left. Also has a deep red eye.

THOR—A fine rich deep salmon red with deeper eye. Large florets and immense flower heads. 36 in.

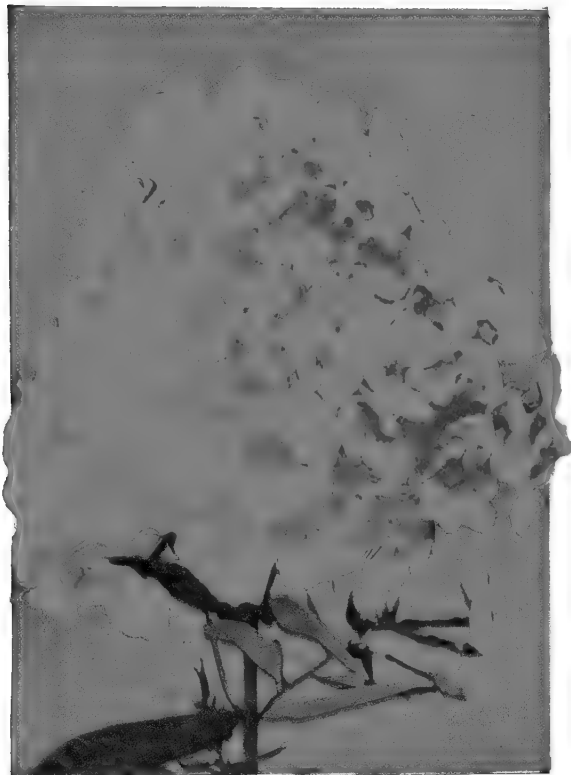

WIDAR—This very lovely lavender Phlox, illustrated in color, is one of our most beautiful and unusual varieties.

[Snowberry]

HARDY AGERATUM (*Eupatorium Coelestinum*)—See color illustration. 18 to 30 in. Those who are fond of the lovely blue Ageratum will surely find this hardy species even more enchanting. The plant is literally covered with true fluffy blue Ageratum flowers, from July until frost; but best of all it reappears each year without further attention after it is once planted. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.75; 100 for \$17.50.

AQUILEGIA (*Columbine*)—See illustration. Every gardener loves the dainty columbines. The long-spurred Hybrids I am offering are a great improvement over the older varieties. There is a wide range of delicate soft colors and rich pastel shades. Large, healthy 2 year old field grown plants. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.75; 100 for \$17.50.

BLEEDINGHEART (*Dicentra Spectabilis*)—See illustration. This old favorite with graceful racemes of flowers is a great delight in any garden, and will make itself perfectly at home anywhere. When once established it is good for a lifetime with no care and becomes more handsome with each succeeding year. Extra Strong Clumps, 75c each; 3 for \$2.00; 6 for \$3.50.

PLUMED BLEEDINGHEART—The plumed foliage of this variety has a beautiful fern-like appearance, more handsome than the finest fern. Blooms all summer and the foliage remains handsome until killed by severe freezing weather. Prefers semi-shade. 75c each; 3 of \$2.00; 6 for \$3.50.

CHINESE LANTERN—Also known as "Winter Cherry." See illustration. The red balloon-like fruit form excellent winter decoration as they dry and retain their color through the winter. 35c each; 3 for 75c; 6 for \$1.25; 12 for \$2.00.

COREOPSIS "Golden Giant"—See illustration. A glorious new giant-flowered coreopsis of perfect form, outstanding true golden yellow color and exquisite fragrance. Nothing is more colorful in the garden. A real acquisition for garden or cut flowers. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.75.

FUNKIA SUBCORDATA GRANDIFLORA ALBA—This rare and unusual Funkia has large exquisitely fragrant white flowers resembling Easter lilies and almost as large, borne profusely all summer long. The foliage is also ornamental. They are so hardy that they will grow anywhere, in sun or shade, with practically no care. Equally attractive in the rock garden or in a wild garden, or in the border, or in a bed by themselves. Wherever you plant them they will take care of themselves. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50; 100 for \$50.00.

FORSYTHIA—Everybody loves the beautiful Forsythia, herald of Springtime, with its masses of bright yellow flowers. The flowers cover the branches in early spring before any foliage appears. See illustration. Huge plants, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

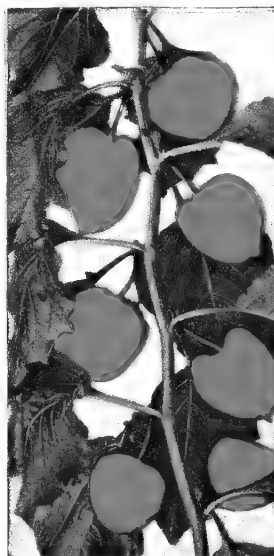

CAILLARDIA GRANDIFLORA—18 in. See illustration. Daisy-shaped orange yellow flowers, banded with red. Flower freely all summer and fall. You will never be out of cut flowers if you grow a few Gaillardias. Large clumps, 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

LIATRIS (*Blazing Star* or *Gayfeather*)—An excellent cut flower or garden subject growing with flowers along the stalk much like a Delphinium. See illustration. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; 100 for \$17.50.

LYCHNIS CHALCEDONICA—3 ft. See color illustration. One of the most brilliant of our hardy plants, with vivid scarlet flower heads. Flowers all summer. 35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.75.

PAINTED DAISY "Brilliant"—Best of all the Painted Daisies, the gorgeously brilliant, fully double red flowers being superb as cut flowers and a masterpiece of beauty in the garden. All are plants from root division of the original plant. See illustration. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

PAINTED DAISY "Miami Queen"—Much like Brilliant, and equally as fine in a somewhat lighter tone. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

Spiraea Anthony Waterer

PAINTED DAISY "Trojan"—A very lovely free flowering dark pink variety. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

PAINTED DAISY "Victory"—Fully double pure white as shown in the illustration lower right hand corner. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00.

SHASTA DAISY "Mayfield Giant"—Produces in great profusion daisy-like flowers of huge size. Fine for cutting or garden effect. See illustration at right. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$20.00.

PINK SHASTA DAISY "Clara Curtis"—Absolutely new, introduced for the first time in 1939. A glowing pink Shasta Daisy that is hardy and disease resistant. Height 18 to 24 inches, with a spread of 2 feet and literally covered with flowers. Gorgeous in the garden and superb for cut flowers. Flowers during August, September, and October. Only a limited quantity available for delivery this year. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 100 for \$22.50.

DOUBLE WHITE SHASTA DAISY "Marconi"—These double white Shasta Daisies are just like double white Chrysanthemums, but flower earlier, commencing to flower in July and continuing until frost. They are the Elite of the Shasta Daisy group and a delightful addition to any garden. As cut flowers they are unsurpassed. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$7.00; 25 for \$12.50; 100 for \$45.00.

SNOWBERRY (Also called Waxberry)—A hardy shrub of unusual interest because it is covered with wax-like snow white berries—see illustration. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50; 25 for \$6.50; 100 for \$20.00.

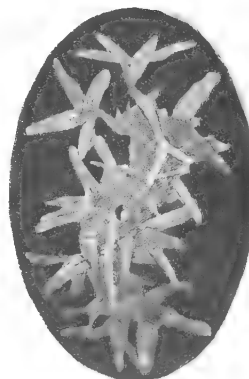

SPIRAEA "Peach Blossom" (Astilbe)—See illustration. Entirely different from other Spiraeas, as this type grows only about 18 inches tall and is used extensively by florists as specimen pot plants. Hardy and easy to grow and handsome in the garden or as cut flowers. 50c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.75; 25 for \$7.00.

SPIRAEA "Van Houttei"—A very showy hardy spring flowering shrub, literally covered with snow white flowers as shown in the illustration at the bottom of Page 16. Fine as a specimen shrub, or for a hedge or foundation planting. Huge specimen plants, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$8.00; 25 for \$15.00.

SPIRAEA "Anthony Waterer"—A hardy shrub producing deep rose colored flowers in great profusion. Best of its color. See illustration. Extra large, strong clumps, \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50; 25 for \$13.50.

HARDY SWEET PEA (Lathyrus)—The flowers are quite as handsome as the annual Sweet Pea, but once planted these Hardy Sweet Peas will take care of themselves, coming up each year with little or no care. For covering a low trellis or fence there is nothing finer. The flowers grow in clusters, one cluster being sufficient for a small corsage bouquet, and the plants are covered with these delightful red, pink, and white flowers all summer long. Sold in mixed colors only. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 25 for \$5.00; 100 for \$17.50.

WHITE SWAN DOUBLE DAISY—See illustration. Something new and unusually beautiful. Solid double pure show-white flowers on good wiry stems from 18 to 24 inches long. Magnificent for cut flowers and for landscape or garden effect. Used extensively by the florist trade. 35c each; 3 for 75c; 6 for \$1.25.

Giant Mallows

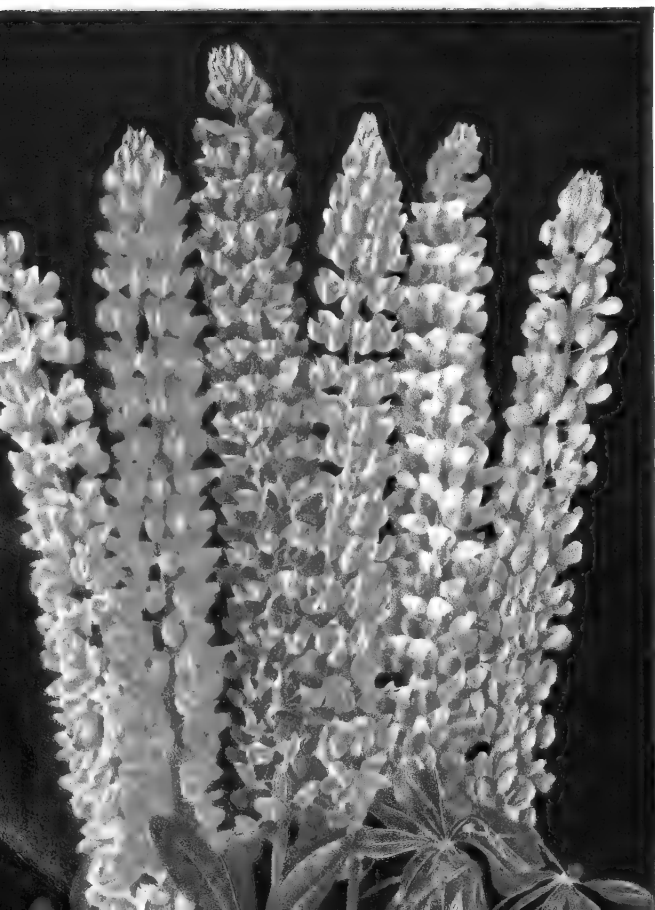

The illustration at the right is very greatly reduced. THE FLOWERS BEING MORE THAN FOUR TIMES THE SIZE OF THE ILLUSTRATION. These new improved Giant Mallows are truly of colossal size, being as large as a dinner plate and as handsome as they are large. They look much like huge hollyhocks, but the flowers are several times as large as a hollyhock and the plants are more bushy. They flower profusely all summer long and require no care, being among the hardiest of all flowering plants. The extra strong roots I will send will flower the first year and grow larger and finer each year. Once planted they flower year after year with no special care. Either in the home garden or in the wild garden their rugged constitution gives assurance that they will take care of themselves. In the entire horticultural field nothing is more showy, or more easy to grow. Red, pink, white, or mixed colors. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00; 100 for \$20.00.

Reduced)

SENSATIONAL RUSSELL LUPINS—No flower has produced as much of a sensation as these Russell Lupins, which are absolutely new and as far superior to the old style Lupins as modern fashions are superior to those of 50 years ago. The illustration speaks for itself as to beauty and the color range seems to be unlimited, the illustration showing only a few of the remarkable new colors. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.50.

Sensational Russell Lupins

TRADESCANTIA "James C. Weguelin"—One of the choicest garden flowers of recent European introduction. A beautiful new free flowering hardy plant with lovely porcelain blue flowers freely produced from June to September. The flowers are about twice as large as the regular Tradescantia. Hardy anywhere and requires practically no care. Particularly valuable because it will bloom freely in shady places. 75c each; 3 for \$2.00; 6 for \$3.75; 12 for \$6.50.

PLANT PATENT NO. 335

ROME GLORY (Everblooming) Plant Patent No. 304. This is undoubtedly the finest red rose introduced to date, being even finer and more brilliant in color than the illustration. The delightfully fragrant flowers are produced in great profusion all summer, on long stems that make them ideal for cutting. Perfect in every stage, from the crimson red bud to the fully blown flowers. Long lasting, either on the bush or when cut. Robust and vigorous grower and one of the most winter hardy of all Hybrid Tea Roses. I do not hesitate to recommend Rome Glory as the one red rose that should be in every garden. **\$1.25 each; 3 for \$3.15.**

McGredy's Salmon (Everblooming)

COPYRIGHT

Pearl S. Buck (Everblooming)

PEARL S. BUCK. Plant Patent No. 423. A new exquisitely beautiful Rose of surpassing fragrance, hardiness and richness of color. The deep yellow pink edged bud opening to a blossom of the purest Gold. \$1.50 each; 3 for \$3.75.

MRS. FRANCIS KING (Everblooming) Plant Patent No. 253. See illustration above. All hybridizers agree that a good white rose is hardest to produce. This is probably why such a connoisseur as Mrs. Francis King, one of the founders of The Garden Club of America, specified a white rose as the one she wished to bear her name. She wisely wanted a rose not easily duplicated. To make the problem more difficult she specified "White Gold" with the arctic vigor and hardiness of the Alaskan Rose Nutkana. The blossoms are very large, carried on long upright stems, white at first tinted cream and ivory, turning to pure white with a soft gold centre. It has the pleasant fragrance of wild roses and is a prolific continuous bloomer. CERTIFICATE OF MERIT 1937. \$1.00 each; 3 for \$2.50.

"Break O' Day" Rose

A New Type of Rose to Revolutionize the Rose Industry. "Break O' Day" is the direct result of 35 years of Rose Breeding for the purpose of producing certain definite improvements in the rose family. The result is an entirely new type of rose never before produced. The flowers are very large, with 60 petals, exquisitely fragrant and superior to anything in commerce in Hybrid Tea Roses. The bush produces many times the number of flowers produced by the most vigorous Hybrid Tea Rose, being loaded with flowers all summer and fall. But one of the greatest achievements in "Break O' Day" Rose is its life expectancy of 40 to 50 years. Instead of planting a hybrid tea rose to enjoy a few years of blossoms, you will now plant this new type of rose for a life-time of flowers.

AND IT IS SUB-ZERO HARDY and will make 4 to 5 foot specimens, three feet in diameter, constantly covered with blossoms; or you may keep them trimmed back as desired. To reproduce this rose in color in the illustration at the left was the despair of the artist, with its many changing salmon, apricot and pink tints, all blended together in a delightful harmony. The color leans more towards the pink tone and is much more handsome than the illustration. **Extra Strong Two Year Old Field Grown "Cream Quality" plants \$1.50 each; 3 for \$3.75.**

**Break o' Day
(Everblooming)
Sub-Zero
Hybrid Tea**

**Matador
(Everblooming)**

Lily Pons Rose

"Lily Pons" is the result of the same 35 years of cross breeding as "Break O' Day," with all of its good qualities as described above. "Lily Pons" is the second of this new group of Sub-Zero Hardy Improved Hybrid Tea Roses. It is undoubtedly the greatest achievement in roses today. Such perfection was never seen in a rose before.

It is a huge flower, as fine as the finest hothouse grown rose as charming and brilliant as the voice of the singer for whom it was named. The flowers are *five and one-half inches* across and freely produced all summer. The centre is yellow, shading to white outer petals.

\$1.50 each; 3 for \$3.75.

On all patented roses the price for 3 applies only where 3 of a kind are ordered.

The special group prices are made with the consent of the patentees and can only be allowed where complete groups are ordered without change.

MATADOR (Everblooming) Plant Patent No. 170. AWARDED A SILVER MEDAL AT PORTLAND, 1936. This is one of the most remarkable deep dark red roses ever produced. It is a brilliant crimson, with a rich velvety maroon sheen. The flower is very large and perfect in form and brimful of attar of Rose. It is a sturdy grower, a free bloomer, and equally fine as a bedding variety or as a cut flower. The petals are of heavy kid-like substance, but with a velvety sheen, giving an unusual richness. **\$1.00 each; 3 for \$2.50.**

Arctic-Hardy Everblooming

I am presenting here a group of new, little known, Arctic-Hardy Roses that are the most persistent and profuse bloomers of all roses from summer until fall. They are especially bred for mass planting and are particularly recommended for their permanence, hardiness, profusion of bloom and ease of culture. For continuous color mass in the garden, or for hedges, or foundation planting, they are unsurpassed. They are hardy anywhere and are therefore especially recommended for colder climates, or locations where the winters are very severe.

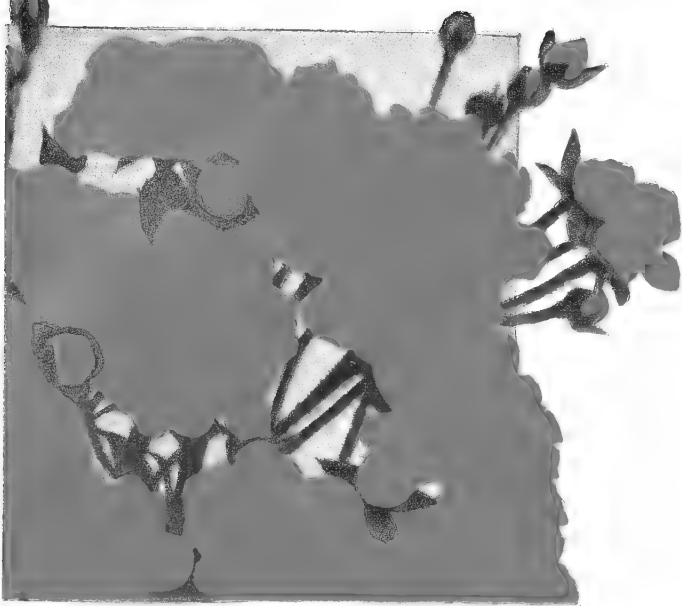

GLOIRE DU MIDI (Everblooming) Plant Patent No. 270. A delightful variety in an unusual brilliant orange scarlet tone, the plant being completely covered with flowers. One spray makes a bouquet. A fine bedding variety. 85c each; 3 for \$2.15.

ROCHESTER (Everblooming) Plant Patent No. 131. No bush ever produced more blooms per plant than Rochester. The flowers are fully double, in a most attractive two-tone effect, pink and buff, deeper at the centre, having coppery tones at the base of the petals. \$1.25 each; 3 for \$3.15.

ANNE POULSEN (Everblooming) Plant Patent No. 182. By far the best red rose in this class and the largest of this type. Large semi-double flowers of intensely vivid scarlet-crimson in large fragrant sprays. 85c each; 3 for \$2.15.

SMILES (Everblooming) Plant Patent No. 331. A bright salmon pink that is so cheerful that some one said "It looks up at you from its place in the garden and smiles." Delightfully fragrant and a continuous and profuse bloomer. \$1.00 each; 3 for \$2.50.

DONALD PRIOR (Everblooming) Plant Patent No. 377. New. This is my own personal favorite of this entire

Floribunda Roses

group. It is never without its brilliant vivid velvety red flowers all summer long and it is certainly a great acquisition to any garden. In addition to its other good qualities it has a rich Damask fragrance. 85c each; 3 for \$2.15.

SNOWBANK (Everblooming) Plant Patent No. 279. This rose is well named, as the flowers which open blush white soon turn to a pure dazzling snowy whiteness. They are of large size and borne in great profusion and the plants are always in bloom. 85c each; 3 for \$2.15.

PERMANENT WAVE (Everblooming) Plant Patent No. 107. Similar in color and habit to Anne Poulsen, excepting that the petals are beautifully fluted and waved, the name being most appropriate. 85c each; 3 for \$2.15.

BETTY PRIOR (Everblooming) Plant Patent No. 340. Continually stole the show at the New York World's Fair. Distinctive in appearance, attractive in color, which is a two tone pink, with deeper brilliant pink on the outside, a prodigious and continuous bloomer and attractive from every standpoint. 85c each; 3 for \$2.15.

WORLD'S FAIR (Everblooming) Plant Patent No. 362. THE THEME FLOWER OF THE NEW YORK WORLD'S FAIR ROSE GARDEN, where their great beauty and dazzling velvety brilliance lasted throughout the entire World's Fair season. The plants are literally covered with deep rich red roses from June until frost, the flowers being immensely more handsome than shown by the illustration. \$1.00 each; 3 for \$2.50.

Everblooming Climbing Roses

For many years the famous Radiance Roses have been the standard by which other roses have been judged as to vigor, freedom of bloom, hardiness and general desirability everywhere. No other rose has ever equalled the Radiance Roses in all these desirable qualities, for which A Silver Medal was Awarded by the American Rose Society. Now we are able to furnish you the everblooming climbing form, with all these desirable qualities and with an even greater profusion of bloom. Why not have the finest roses in America always in bloom, when they can be had at such small cost.

EVERBLOOMING CLIMBING PINK RADIANCE ROSE

Perfect cut flowers, one to a strong stem, as fine as hot-house grown roses. From the colored illustration at left you will realize that this rose is a beauty, either as a cut flower or for a stunning effect in the garden. The flowers are extra large, very double, perfectly formed and extremely fragrant. Hardy, vigorous, free blooming. It has everything that can be expected from a perfect rose. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

EVERBLOOMING CLIMBING RED RADIANCE ROSE

Exactly like the Climbing Pink Radiance Rose, as to habits, form, beauty, ruggedness, freedom of flowering, disease resistance and all other good qualities, the only difference being the color, which is a deep rich American Beauty Red. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

EVERBLOOMING CLIMBING PRESIDENT HOOVER

The President Hoover Rose has been one of the sensations of the century and has been AWARDED TWO GOLD MEDALS AND ONE SILVER MEDAL. Probably not one rose in a thousand is so honored. It is a rose of huge size, perfect form and delightful colors, the illustration on this page being about half the actual size. Now offered in Everblooming Climbing Form at \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

MARY LOVETT CLIMBING ROSE

A perfectly gorgeous pure snow white climber. The flowers are of large size, fully double and as fine as a Hybrid Tea Rose, but produced in much greater profusion. Sometimes flowers again in the fall. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

Everblooming Climbing Talisman

EVERBLOOMING CLIMBING TALISMAN. No rose has ever approached the popularity of the Talisman Rose as a cut flower. Florists sell more of them to-day than of any rose grown. Now we have this delightful rose in everblooming climbing form. The flowers are about five times as large as the greatly reduced illustration at the right, which gives but a faint idea of the great beauty and brilliance of this fine rose. The large double flowers are identical in form and color with the bush Talisman, but even larger and more handsome and produced in greater profusion. It is perfectly hardy where other roses are hardy and is a robust grower and profuse bloomer, continuing in flower until killed by frost. Extra strong, number one field grown two year old plants. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

CLIMBING ETOILE DE HOLLANDE (Everblooming.) The illustration at left gives some idea of the great beauty of this handsome rose, but its richness cannot be portrayed on paper. It is darker than the Red Radiance rose, which it somewhat resembles, the depth of color giving it added richness. It is also exquisitely fragrant. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

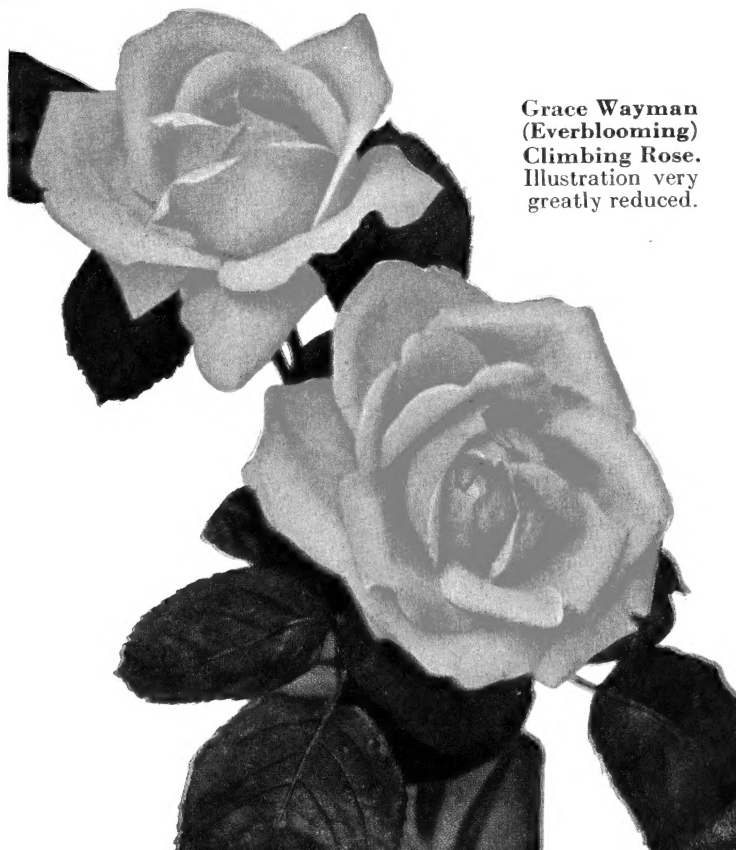

Climbing Etoile de Hollande (Everblooming)

Grace Wayman Rose

The World's Finest Climbing Rose

GRACE WAYMAN ROSE. The World's Finest Climbing Rose. The illustration of the Grace Wayman Rose at right does not begin to do it justice, as it is much more handsome. In fact everyone who has seen the Grace Wayman Rose in bloom has pronounced it the finest climbing rose they have ever seen. Comparing it with other pink climbers it is a better color, better form, larger, more double, of heavier substance and a more profuse bloomer. In color it is a luscious pink, a flower of unsurpassed form and mammoth size, much larger than the illustration. And such profusion of bloom. One wonders how any plant can produce so many gorgeous blooms. But the big surprise is that in addition to its huge crop of flowers in June and an occasional flower during the summer, it will produce the largest crop of any climber in September, and until killed by severe frost. \$1.00 each; 3 for \$2.50; 6 for \$4.50; 12 for \$7.50.

"Copper Glow" Sub-Zero Hardy Climber

COPPER GLOW SUB-ZERO HARDY CLIMBING ROSE—An absolutely new deep coppery orange, being the latest color sensation in roses. In addition to its unusual color and all other good qualities, it also has a delightful spicy fragrance. \$1.00 each; 3 for \$2.50.

Blaze Climber

PLANT PATENT
NO. 10

BLAZE CLIMBING ROSE (Plant Patent No. 10.) See illustration above. Can you imagine anything more attractive than this "Blaze of Glory?" It is a sport of Paul's Scarlet Climber, with all its beauty, hardiness, vigor and profusion of bloom, but with a tendency to produce two or more crops a year in some localities when fully established. One of the most showy of all climbers. \$1.00 each; 3 for \$2.50.

GOLDEN ORANGE CLIMBER (Plant Patent No. 96). Another new climber and a flower of great refinement, no other rose being anything like it. I like it best of all the yellow climbers. The flowers are of huge size, blending from pure yellow to light cadmium orange. Aside from its unusually attractive color and its very rich China Tea Fragrance, what appeals to me is the crinkled silky texture of the petals. It is superb as a cut flower and magnificent on the trellis. \$1.00 each; 3 for \$2.50.

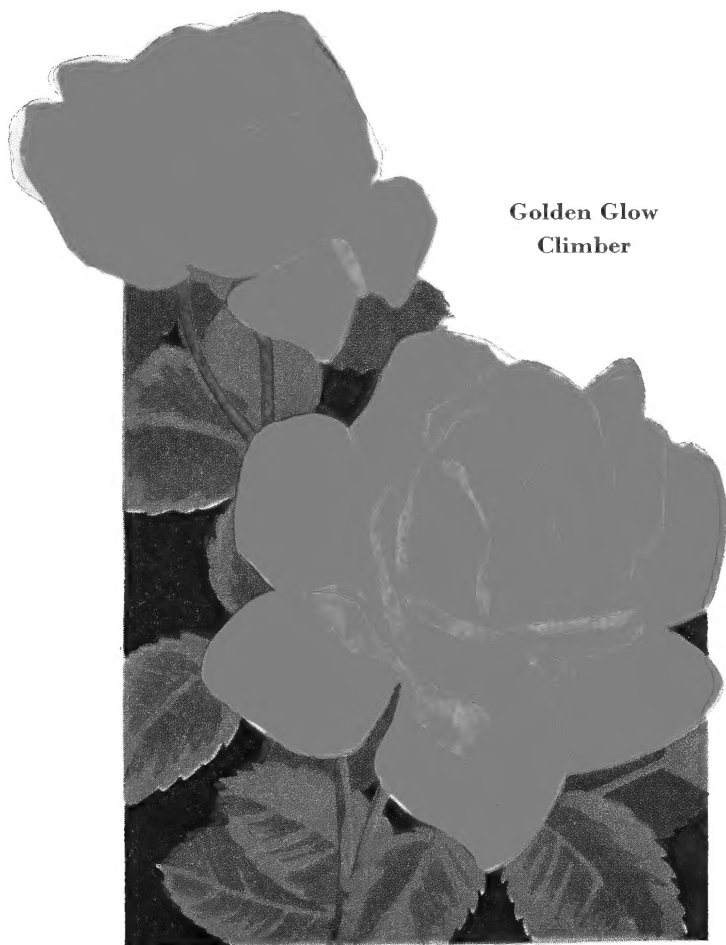

ELEGANCE CLIMBING ROSE—This new climbing rose, with its sparkling brilliance, is the last word in climbers. It is the result of 35 years of cross-breeding and it is one of the greatest climbers introduced to date. The illustration is made from an actual photograph, but is greatly reduced, because if it were produced in actual size it would fill the width of this page, for the flowers are up to 6½ inches across. It is the first of the climbers to flower, and continues blooming over a long period. It is a prodigious bloomer. The flowers are very double and of perfect Hybrid Tea Form, with 65 petals beautifully recurved; exquisite China Tea Fragrance. Yellow centre, blending to cream colored outer petals and eventually becoming pure ivory. Stiff strong flower stems, up to four feet, with one to 20 huge flowers to a stem. New type of feathered shiny foliage. Disease resistant, sub-zero hardy. Extra strong, two year old field grown plants. \$1.00 each; 3 for \$2.50.

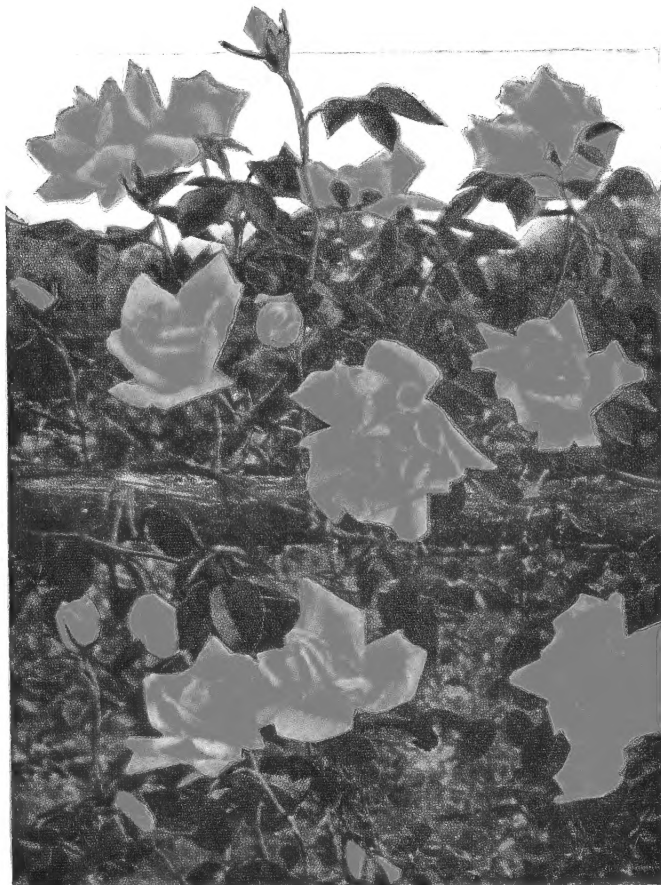

Elegance Climbing Rose

Climbing Roses

GOLDEN CLIMBER (Mrs. Arthur Curtis James). Plant Patent No. 28. WINNER OF THE GOLD MEDAL AWARDED BY THE MASSACHUSETTS HORTICULTURAL SOCIETY. IT ALSO HAD THE GREAT DISTINCTION OF BEING THE WINNER OF THE AMERICAN ROSE SOCIETY'S MEDAL FOR THE BEST ROSE OF 1933. The illustration gives but a very faint idea of the perfection of form and great beauty of this magnificent rose, for it is a perfectly gorgeous flower of Hybrid Tea type, four to five inches in diameter, perfectly double and of fine form. It is a pure deep yellow climber, holding its color until the last petals fall. The flowers are usually produced one to an 18 inch stem, making them ideal for cutting. It has hardy, glossy foliage and ornamental red thorns on rich green wood. The flowers are exquisitely fragrant. The plant is a rugged grower and is hardy in severe sub-zero weather. Should be planted in full sun for best results. \$1.00 each; 3 for \$2.50.

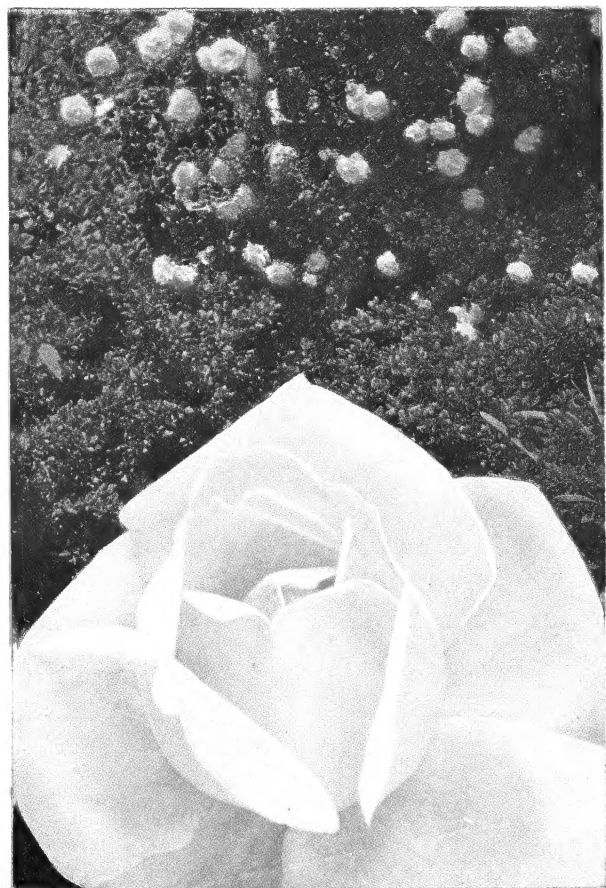

Golden Glow
Climber

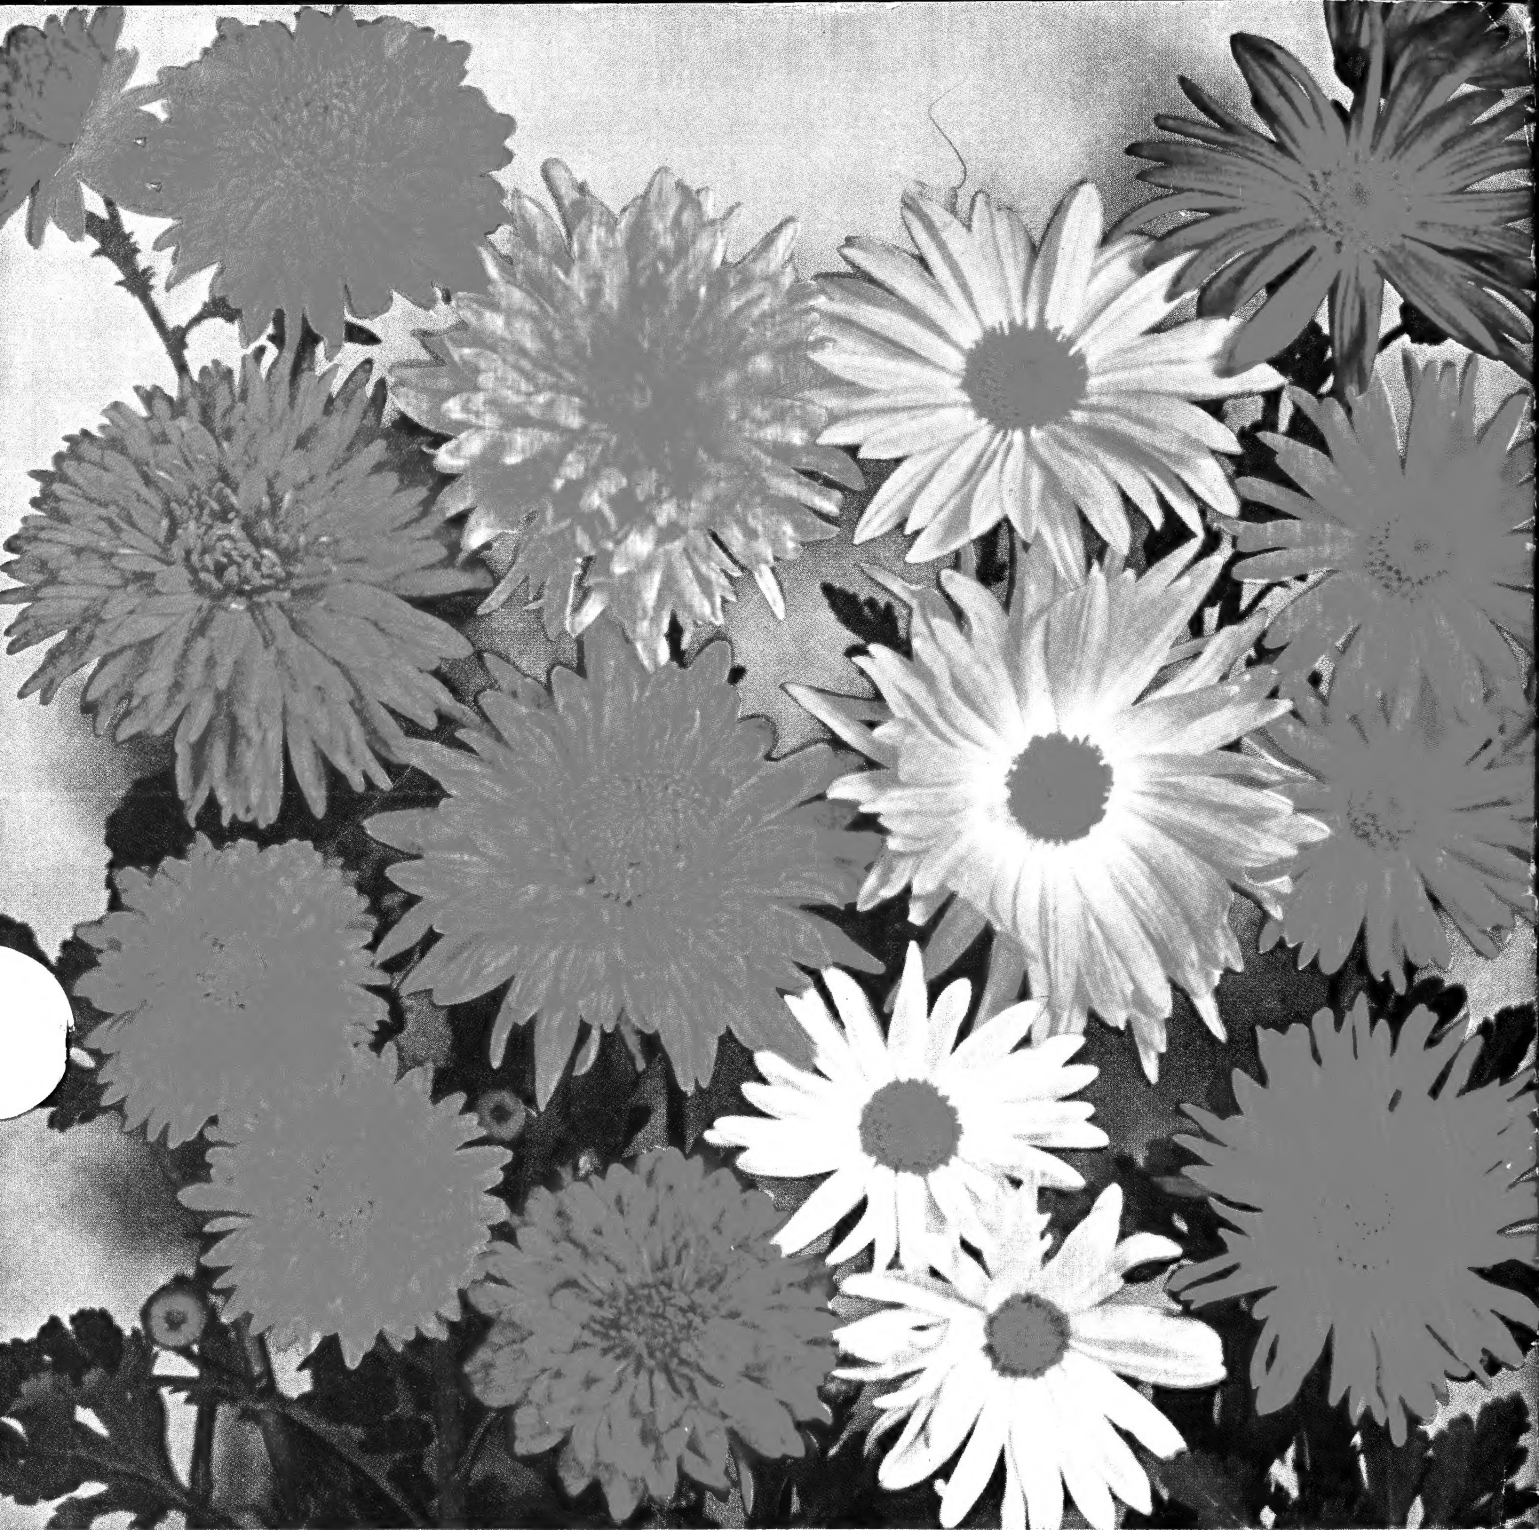

©1933 Golden Climber—Winner of Two Gold Medals

GOLDEN GLOW CLIMBER (Plant Patent No. 263). A sensational pure deep spectrum yellow climber of Hybrid Tea type, with such intense freedom of bloom that the foliage is literally hidden by the flowers. It is an improvement over Golden Climber in profusion of bloom and intensity of color. Perfect double flowers up to 5 inches. Superb as cut flowers and borne in clusters up to 15 or more to a cluster, one cluster often making a huge bouquet. Very fragrant, hardy, and disease resistant. Number one, strong two year old "Cream Quality" field grown plants. \$1.00 each; 3 for \$2.50.

NEW DAWN EVERBLOOMING CLIMBING ROSE (Plant Patent No. 1). A very lovely soft pink climber and a real everbloomer. Constantly in bloom all summer long, right up until killed by frost. No other climbing rose produces so many flowers, or is such a constant bloomer as New Dawn. AWARDED THE BLOOMFIELD MEDAL FOR THE BEST NEW CLIMBING ROSE BY THE AMERICAN ROSE SOCIETY. A HARDY ROBUST GROWER. \$1.50 each; 3 for \$3.75.
